RICHARD LEGLER

4567 West Pine Blvd, Apt 512, Saint Louis, Missouri, 63108 | (312) 366-4606 | richardlegler@rocketmail.com

EXPERIENCE

St. Louis Cardinals — St. Louis, MO
Major League Strategy Fellow — December 2025 - Present

- Automated SQL and R process to generate pre-series packet distributed to 18 members of the coaching staff covering 100+ stats
- Researched optimal bunting and intentional walk strategy to inform better decision making processes at the Major League level
- Constructed and integrated pitch sequencing report for advance scouting with internal website to generate reports on demand covering 12 combinations of usage across different situations and previous outcomes for all pitchers on 40 man roster
- Investigated defensive positioning recommendations to identify algorithm and coaching blind spots across 88,000 pitches

Detroit Tigers — Detroit, MI
Baseball Analytics Associate — February 2025 – November 2025

- Analyzed low frame rate outfield metrics from 90,000+ plays across affiliated levels covering level & position effects, aging curves, and relationship between speed and jump, breaking down reaction, burst and route's impact on OAA150
- Queried database using SQL and developed R scripts to compare previous days' scout evaluations to projection systems for 30+ tools, producing an automated daily email summarizing grade discrepancies distributed to front office executives
- Processed and generated data from 644 videos using computer vision from 34 high school pitchers in preparation for the draft
- Audited and fixed bugs in 4 daily game reports for 2 minor league levels before sending to players, coaches, and front office

Hyannis Harbor Hawks — Hyannis, MA
Baseball Operations Data Analyst Intern — May 2024 - August 2024

- Created and maintained R Shiny application for advanced scouting of 240+ batters and 320+ pitchers across 200+ games from 64,000+ pitches of Trackman data utilizing visualizations to identify trends, strengths and weaknesses of opposing players
- Generated and relayed 17 pitcher scouting reports per game to players and coaches, including starter and reliever usage trees, pitch shapes and location heat maps, statistics by location in strike zone, exit velocity and launch angle data
- Developed and communicated hitter scouting reports to pitching coaches, covering swing decisions and results, heat maps of strike zone and batted ball results of 13 opposing hitters before and during 41 matches
- Evaluated players to aid in 30-man roster management, while providing coaches with optimal batting order recommendations

Advancy — New York, NY
Junior Consultant — July 2021 - June 2023

- Identified client objectives, collected, and synthesized relevant data to solve complex business issues for clients in the chemical and life sciences industries and created client facing PowerPoint presentations
- Provided research and support as member of project team analyzing business issues related to due diligence for acquisition targets and developing insights for growth strategy projects
- Designed and conducted bottom-up and top-down quantitative analyses in Excel to support client's positioning and growth
